# About Dalton International Ltd

Dalton International Ltd is an importing, logistics and distribution company based in Auckland with distribution capabilities nationwide. Established in 1998, Dalton International Ltd specialises in the supply and distribution of products to protect people and the environment.

Our product range covers:

**1. Personal Protective Equipment:**

Safety glasses, hearing and respiratory protection, back, wrist and knee support.

**2. Industrial Apparel:**

High visibility vests, disposable clothing and gloves, industrial gloves, warming and cooling apparel.

**3. Medical:**

First aid kits and supplies, sun protection, paramedic supplies, hygiene and re-hydration.

**4. Environmental:**

Spill containment and response, stormwater management and facilities protection.

**5. Tapes:**

Packaging tape, barrier and printed tapes.

We stock a wide range of respected brands from around the world and are official agents for UltraTech International, Stoko, Sqwincher and SureShield.

Unlike many other importers and distributors, Dalton International does NOT deal directly with end users. Our commitment to our customers is simple...

**“We’re here to work with you, not compete against you”**

Our team of dedicated specialists are able to deliver product and marketing support to ensure our customers are able to win and maintain business. Whether you’re just looking to purchase great quality products at market leading prices or you want help training staff and promoting our products to your customers, Dalton International is here to help.

With our focus firmly on supporting our customers through the procurement, distribution and support of high quality products we have gained a reputation for delivering consistent results which has seen us become preferred supplier to a number of major corporate and independent operators.
